

Gergő Zámbo

Product &
Web Designer

I am a product and web designer with 10+ years of experience. I worked in teams on high-impact, large projects for brands like Ford, Deutsche Telekom, Graphisoft, and Samsung. I helped win 3 creative awards (and support wildlife) with a sustainable website.

Experience

Product (UX/UI) Designer Ergomania (2023–present)

- Leading cross-platform mobile app design projects for British fintech startups to help them focus on user needs and go to market
- Redesigning images and identities of international brands
- Conducting competitor analysis, interviews, and user research
- Managing the internal AI research and design team to innovate and improve design workflows

VML

Senior Digital (UX/UI) Designer (2021–2023)

- Designed mobile apps, websites, and games for digital promotions
- Developed and utilized design systems of global brands
- Led copywriters and designers to develop creative concepts
- Won 3 creative awards for designing a sustainable website that helped raise awareness of water pollution

Digital (UX/UI) Designer (2019–2021)

- Took part in day-long branding workshops for startups and global companies, helping them create their brand's core ideas
- Redesigned a global tech company's brand image and website, positioned it as a market leader

Graphic & Web Designer Tricky (2017–2019)

- Designed user flows, UI kits, and developer handoffs for music streaming platforms, generated lots of uploads and high traffic

Graphic & Web Designer Freelance (2016–2017)

- Led redesign and design projects for corporate & state organizations
- Conducted thorough UX audit and research of large webshops

Art Director & Editor-in-Chief ELTE (2014–2016)

Junior Front-End Developer Mito (2013)
